MAP 2: BROWNHILLS - CONCEPT MAP

Note: Updated version of existing concept map which includes additional issues identified from ongoing meetings.

1. **Native Species Planting**
   - Enhance biodiversity by planting native species.

2. **Path Provision**
   - Provide accessible paths and trails for pedestrians.

3. **Open Space**
   - Maintain open spaces for recreational use.

4. **Infrastructure Improvements**
   - Upgrade existing infrastructure to ensure safety and accessibility.

5. **Soil Improvement**
   - Improve soil quality through soil amendments.

6. **Water Management**
   - Implement water management practices to control runoff.

7. **Erosion Control**
   - Implement measures to prevent erosion and sedimentation.

8. **Vegetation Management**
   - Manage vegetation to maintain a healthy ecosystem.

9. **Public Art**
   - Incorporate public art to enhance the visual appeal.

10. **Design Considerations**
    - Consider landscape architecture principles.

11. **Community Involvement**
    - Engage the community in the planning process.

12. **Monitoring and Evaluation**
    - Establish a monitoring system to evaluate project success.

13. **Maintenance Plan**
    - Develop a maintenance plan for ongoing care.

14. **Coordination with Neighbors**
    - Coordinate with neighboring communities to ensure consistency.

15. **Signage and Interpretive Panels**
    - Install signage and interpretive panels for educational purposes.

16. **Safety and Security**
    - Ensure safety and security measures are in place.

17. **Environmental Impact Assessment**
    - Conduct an environmental impact assessment.

18. **Local Authority Engagement**
    - Engage local authorities to ensure compliance with regulations.

19. **Public Consultation**
    - Hold public consultations to gather feedback.

20. **Long-Term Planning**
    - Develop a long-term plan for future expansions.
